

HEAVY-DUTY MECHANIC

ABOUT SIGFUSSON NORTHERN:

Sigfusson Northern is a third-generation family-owned business, which now has a portion of the company being employee-owned. Our primary focus is on building strong and lasting relationships with our employees, our clients, and the communities we serve. Ongoing growth and diversification have led Sigfusson Northern to the forefront of general contracting and heavy civil construction where we incorporate trust, respect, integrity, and commitment to our community in every decision we make and everything we do.

POSITION SUMMARY:

Reporting to the Fleet Service Manager, the Heavy-Duty Mechanic is responsible for the maintenance of equipment and troubleshooting issues as they arise. The Heavy-Duty Mechanic will communicate with site personnel on a consistent basis to ensure the equipment is operating safely and efficiently. This role is on a rotational schedule where camp accommodations are provided, and there will be a day shift and night shift required

CORE RESPONSIBILITIES & DUTIES:

- Attend daily safety and pre-shift meetings
- Ensure safety is a top priority while performing all duties and responsibilities
- Daily communications with the site Superintendents, Project Managers, and General Foreman
- Troubleshoot and determine diagnosis on overhaul equipment including testing and adjustments
- Service and repair of equipment including excavators, dozers, graders, haul trucks, and light vehicles
- Update and maintain the maintenance records using the E360 program
- Operate and maintain the company service truck

EDUCATION, EXPERIENCE & SKILLS:

- Journeyman Red Seal Heavy Duty Equipment Technician certification is required
- Minimum 5+ years of extensive experience with heavy construction is required
- Experience with CAT S.I.S, JD Service Advisor, and Volvo Prosis will be considered an asset
- Experience working on 777 and 740 rock trucks will be considered an asset
- Experience working on CAT excavators and dozers will be considered an asset

SIGFUSSON NORTHERN LTD.

Plan the Work – Work the Plan, Continual Improvement, We Care, Versatility

- Experience with various machine control systems (Trimble and Topcon) will be considered an asset
- Extensive experience troubleshooting and resolving issues is required
- Critical thinking and effective decision-making skills are required
- Ability to work independently and as part of a team
- Ability to work under pressure
- Strong accuracy and attention to detail
- Must be physically fit to perform the Heavy-Duty Mechanic job duties and requirements safely
- Must hold a valid driver's license
- Must always keep safety a top priority
