

## **FIELD SURVEYOR**

### **LET US INTRODUCE OURSELVES!**

Sigfusson Northern, historically a family-owned business, has entered its 4th generation of ownership encompassing employee participation. Our primary focus is building strong and lasting relationships with our employees, our clients, and the communities we serve. Ongoing growth and diversification have positioned Sigfusson Northern at the forefront of heavy civil construction and general contracting, known for our ability to overcome any obstacle. Tough, reliable, and quality-driven, we consistently deliver the highest value. We know the north. We are multi-faceted. We help lift communities. We embrace new technology. And we are highly skilled.

### **WHAT THE ROLE IS ALL ABOUT!**

Reporting to the Survey Lead, the Field Surveyor will be responsible for daily staking and as-built point pickups in accordance with project designs and specifications. The Field Surveyor will collaborate closely with Survey Leads, Project Managers, and Field Superintendents to ensure that tasks are completed on schedule and meet project guidelines and quality standards. Duties may also involve utilizing advanced surveying equipment and technologies, such as laser scanners and drones, based on the specific needs of the project. This is a rotational position located in Northern Ontario or Northern Manitoba, with camp accommodations and flight travel provided.

### **ESSENTIAL CONTRIBUTIONS WE NEED FROM YOU!**

- Conduct daily staking operations in alignment with project designs and specifications
- Perform field topographic survey pickups using RTK Rover and Base and drone technology
- Compile, analyze, and document as-built survey data for both internal and external use
- Create and maintain redline mark-up drawings and built record drawings
- Generate design plans from paper sketches and field data, as needed
- Resolve survey layout issues and troubleshoot machine control on-site with TOPCON and Trimble systems
- Collaborate effectively with Survey Managers, Project Managers, and Field Superintendents
- Accurately record and document field data in accordance with project requirements and corporate standards

### **WHAT WILL MAKE YOU A POSITIVE IMPACT?**

- Experience in GPS construction is required
- A Degree in Engineering, College Diploma or equivalent will be considered an asset
- Experience with survey grade drones and photogrammetry will be considered an asset
- Transport Canada Drone Pilot Certification will be considered an asset
- Knowledge of DTM surfaces and DXF files in data collector is required
- Working experience in AutoCAD Civil 3D and Trimble Business Centre is required
- Strong knowledge of proper construction staking of roads, dams, pads, and ponds
- Ability to work remotely and on a rotational basis is required

- Critical thinking and effective decision-making skills are required
- Ability to work independently and as part of a team
- Ability to work under pressure and meet strict deadlines
- Strong communication skills both verbal and written as well as electronically
- Strong accuracy and attention to detail
- Must hold a valid driver's license
-
