

OPERATIONS MANAGER, HEAVY CIVIL CONTRACTING

LET US INTRODUCE OURSELVES!

Sigfusson Northern, historically a family-owned business, has entered its 4th generation of ownership encompassing employee participation. Our primary focus is building strong and lasting relationships with our employees, our clients, and the communities we serve. Ongoing growth and diversification have positioned Sigfusson Northern at the forefront of heavy civil construction and general contracting, known for our ability to overcome any obstacle. Tough, reliable, and quality-driven, we consistently deliver the highest value. We know the north. We are multi-faceted. We help lift communities. We embrace new technology. And we are highly skilled.

WHAT THE ROLE IS ALL ABOUT!

Reporting to the Vice President, Heavy Civil Contracting, the Operations Manager, Heavy Civil Contracting, is accountable for overall project success inclusive of the project team, schedule, safety, quality, and cost for projects they are assigned to. This position will champion cross functional collaboration between project teams and support departments throughout Sigfusson Northern. The Operations Manager, Heavy Civil Contracting must have a regular on-site presence where 50% or more of their time is spent on various project sites, throughout Manitoba and Ontario.

ESSENTIAL CONTRIBUTIONS WE NEED FROM YOU!

- Oversee and work closely with the project team on all aspects of project execution.
- Support Pre-Construction and Estimating through the bid phase of a project.
- Attend, or delegate an attendee, for pre-bid site visits and bid reviews to ensure operational risks and opportunities are considered and incorporated at time of estimate.
- Ensure a detailed plan to execute project with a developed win strategy is completed, updated throughout execution and followed – financial budgets, schedules, material procurement, subtrade coordination, permits and insurance.
- Analyze and understand the efficient start up and effective closeout of each shift, turnaround, and overall project duration while ensuring safety and operational targets are achieved.
- Review all incident reports ensuring appropriate corrective actions have been identified, communicated, documented, and implemented.
- Confirm all project contracts and specifications are reviewed and understood by Superintendents, Project Managers, and applicable project team members.
- Ensure work is always inspected and in compliance with construction specifications to avoid rework and unnecessary deficiencies.
- Participate in and support the development and maintenance of project risk analysis to identify and mitigate safety, financial, and schedule risks.
- Participate in owner meetings to build relationships, resolve issues and maintain alignment with our clients.
- Liaise with engineers, architects, and other external stakeholders involved in Sigfusson Northern's projects at the senior level.
- Participate in annual capex and operational budget planning.
- Participate in project handover, kickoff, and closeout meetings, as well as divisional bi-weekly process/procedure meetings, open houses, and operations summits.

THIS IS WHAT WILL MAKE YOU A POSITIVE IMPACT!

- Extensive and proven experience (10-15+ years) in a high-volume supervisory role and applicable construction industry experience.
- Proven experience mentoring and leading a large-sized, dynamic team.
- Experience working in extremely remote locations and on large construction projects will be an appealing asset.
- Prioritize the health, safety, quality, and environmental standards of the employees, company, project environments and strives to hold a strong safety record.
- Natural ability to manage, mentor, motivate, and develop a team. Proven to be respected as a leader.
- Confident with digital tools such as tablets, mobile apps, and laptops for documentation and communication.
- Able to establish credibility with project leaders and employees, along with senior management, executive, and clients.
- The ability to promote and ensure compliance with company policies and procedures effectively and professionally.
- Strategic and tactful skills to balance operational production efficiency and safety compliance.
- Understand the importance of collaboration with various departments to ensure success for the entire company.
- Continually leads by example and influences project teams to do the same.
- Experience and ability to read and effectively interpret IFC drawings, specifications, and work packages.
- Familiarity with productivity tracking, time entry systems, and safety reporting tools.
- In-depth knowledge and willingness to continually learn OSHA, environmental responsibilities, employment laws, practices, and standards.
- Ability to provide and receive constructive feedback, and the ability to manage and resolve conflicts in a professional manner.
- Ability to work in a fast-paced, always changing environment, which requires critical thinking and last-minute priority adjustments.
- Must be able to present a clear security clearance check and pass an alcohol & drug test prior to commencing employment and if required, throughout employment.
- A valid driver's license is required.
